TEXAS FRUIT LANDS

PRODUCE EARLY CROPS WHICH BRING FANCY PRICES.

In Texas they begin shipping berries in April, tomatoes in May, Peaches in June, bringing fancy prices up North.

The growing season is much longer than in the North—a chance to make two and three crops, reducing the expense of "getting through" the winter.

Fruit and truck lands along the Cotton Belt Route are very cheap as yet—\$10 to \$15 an acre unimproved. When put to orchard or truck they can be made to yield \$100 to \$200 per acre and more.

Besides it's an ideal climate—no long, cold winters. Write for booklet on fruit and truck growing. E. W. LAHEATME, G. P. & T. A., Cotton Belt Route, St. Louis, Mo.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound six-ounce can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCKMAN, Ga., Jan. 21, 1905.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting on fine. They are looking 10 per cent better.
